TCB1000	1000 mm	717 mm	707 mm	900 mm
TCB1625	1625 mm	717 mm	707 mm	1525 mm

Profile

Khira's experience in manufacturing steel furniture dates back to 1952. Over the years, its products have set standards in the market.

Industrial storage and transport systems, one of Khira's main areas of expertise, have found firm place in most reputed factories in the country. Khira is in fact the first company to convert the concept of scientific storage to reality. Apart from standard range of storage systems, Khira has the capability and capacity to manufacture storage systems to customer's specific designs (provided, of course, the quantity being reasonable enough).

Today, it is ranked as the second largest steel furniture manufacturer in India.

It has wide experience in industrial storage systems and hence can assist customers in systematically devising their storage solution.

Tool Trolleys & CNC Transporters

Khira Tool Transportation Trolleys help the user move tool from one operation to the other in a shop floor. The tool trolley consists of a rigid frame, slotted side walls, castor wheels and handle. The slotted side walls are provided with slots at a pitch of 25 mm for optimum height utilisation.

TRB 800

TRM 800

NC 8A

TRB 785

Model No.	Height	Width	Depth
NC 8A	910 mm	685 mm	485 mm
NC 8B	910 mm	935 mm	685 mm
TRB 800	1000 mm	572 mm	707 mm
TRM 800	1000 mm	572 mm	750 mm
TRB 785	785 mm	572 mm	707 mm

Machine Shop Cabinets

Khira Machine Tool Cabinets are ideal for decentralised storage of tools for organizations engaged in manufacturing. It consists of an outer body with hinged doors and drawers. Hinged doors are provided with a three way locking device for security.

TCM 1625

TCM 1000

Model No.	Height	Width	Depth
TCM1000	1000 mm	717 mm	750 mm
TCM1625	1625 mm	717 mm	750 mm

Roller Shelf / Wall Storage Systems Mobile Storage

2 Bay Roller Shelf Storage

The Roller Shelf Storage is a heavy-duty storage system that has been built to offer more functionalities to the Wall Storage System. It comes with a front gate and backstop and is built of standard conveyor rollers which offer endurance and malleability to the structure. The height of the shelf helps in optimizing the available storage space. The Roller Shelf can be easily fixed to the Wall Storage System.

The tool storage-device system helps optimizing the storage area ensuing increase in the efficiency on the shop floor. They are convenient enough for a range of sizes of drawers which can accommodate an array of tools and related accessories.

3 Bay Wall Storage

Model No.	Height	Width	Depth
3 Bay Wall Storage	2000 mm	2186 mm	703 mm
2 Bay Wall Storage	2000 mm	1475 mm	703 mm
Roller Shelf Storage	2000 mm	1475 mm	703 mm
Mobile Storage	2160 mm	2840 mm	900 mm

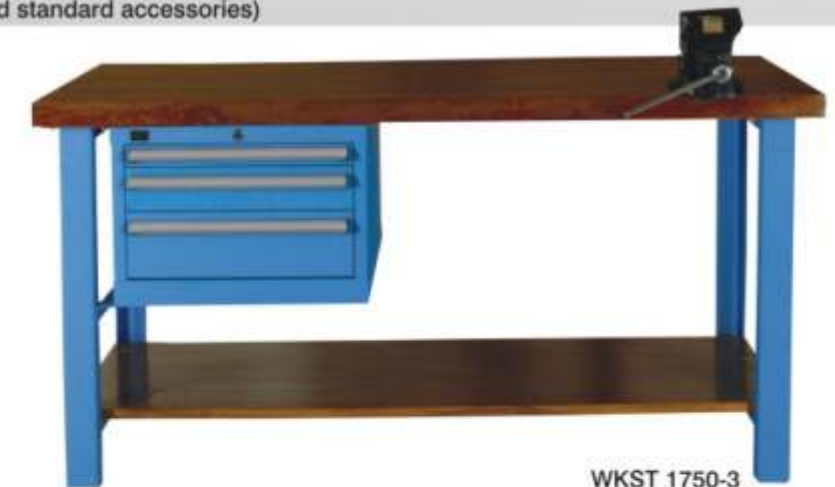

Mobile Storage

Workstations

Khira Workstations are specially designed to provide skilled personnel with an integrated and self-sufficient work place. They essentially consist of four elements - workstations top, understructure, tool storage drawer unit and bottom shelf.
